

## SIGNIFICANCE

## INDICATOR

Child maltreatment is a serious problem that has grave and costly consequences for the child, his or her family and the community at-large.

A child who has experienced abuse and neglect is more likely to have social, emotional and physical health problems and perform poorly in school.

### Child Abuse Reports

Reported incidents of suspected child abuse through the ChildLine and Abuse Registry. Does not include General Protective Service reports which include less severe general neglect reports.

## SIGNIFICANCE

## INDICATOR

A child's separation from his or her parents or relatives is traumatic for all involved. Minimizing the time a child spends in foster care without compromising safety is key to healthy child development.

### Timely Reunification with Parents or Relatives

Children who entered foster care for the first time who were reunified with their parents or discharged to relatives within the next 12 months.

BRADFORD COUNTY	RURAL	STATE
50.7%	54.8%	48.2%

A child re-entering foster care following a return to his or her family signals a breakdown in the family and a potential failure on the part of the child welfare system to appropriately address family needs.

### Re-entry into Foster Care

Children who re-entered foster care in fewer than 12 months following reunification with parents or relatives. (data may be overstated)

BRADFORD COUNTY	RURAL	STATE
10.5%	21.8%	27.8%

A child relies on his or her family for an array of supports from early childhood through adulthood. Without a permanent family, a child fails to have a sense of security and suffers from a lack of belonging.

### Children Leaving Foster Care

Children who exited foster care by discharge reason and how long they were in foster care. Also includes the median length of stay for children remaining in foster care.
